

GRANULATORS

EM SERIES
PRESS-SIDE

- 4 Models to Choose From
- Manual or Robotic Feed
- Interlock Time Delay Safety
- D2 High Carbon Steel Knives
- Tangential Feed Design

The **EM Series** is designed for maximum versatility. This press side granulator is operator friendly, easy to service and maintain. Precision scissor cut action provides maximum through-put efficiency. Product features include:

HOPPER

- Combination hopper for front (manual) feed or top (robotic feed)
- Hinged for easy opening for cleaning and servicing

NOISE CONTROL

- Engineered to meet 90 DBA or less for most materials
- Special steel / plate / steel laminate to reduce resonant noise

CUTTING CHAMBER

- Tangential feed design to reduce flyback
- Heavy duty welded steel construction

BEARINGS

- Oversized
- Outboard mounted
- Self aligning
- Pillow block housing
- Separated from cutting chamber to eliminate heat build-up or grease contamination from granulate

ROTOR

- 3 blade open type
- Knives mounted at a steep angle and counter angled to provide a precision scissor cut

KNIVES

- 3 Rotor
- 2 Bed
- D2 high carbon / high chrome tool steel

SCREEN

- 1/4" or 5/16" diameter holes
- Reversible

SCREEN CRADLE

- Hinged
- Drops open for easy cleaning and servicing

PRICE & PERFORMANCE... for the LONG TERM

SCREEN

- Easy handling of material
- Vacuum unloading with wand

DRIVE

- ODP motor
- V-belt

ELECTRICAL CONTROLS

- Magnetic starter
- Thermal overload
- Start / stop buttons
- Reduced voltage control circuit

SAFETY FEATURE

- Hopper and screen cradle are electrically and mechanically interlocked with a time delay safety bolt

WARRANTY & SERVICE

- 1 year on parts & labor
- Nationwide network of service contractors

TEMPTEK

since 1989
